Subject: Opioid Litigation Settlement Fund Distribution

Dear Commissioner Shibinette:

The City of Claremont received the 15% share of the Opioid Abatement Trust Fund Distribution for \$4,185.03 back in June of 2021. According to RSA 126-A:84, we are required to provide a report to NH DHHS on how we spent these funds on or before September 1, 2021. When I searched the NH DHHS site under the Opioid Abatement Trust Fund link, I did not find any mechanism or information as to how to report this use of funds. After contacting NH DHHS and Senator Rosenwald's office, I was told to send the report to you.

The City of Claremont has not of yet spent the \$4,185.03. The money is allocated to a non-lapsing fund separate from the city's operating account. Please let me know if there is any additional information that you need.

Thank you,

Lisa M. Richmond
